

Wednesday 3rd December 2025

Dear Parents and Carers,

We are excited to let you know that **tomorrow, Thursday 4th December**, our Robins and Kingfishers classes will have a very special visitor! We have invited **Frazoo**, an experienced animal educator, to share a fascinating selection of reptiles and minibeasts with the children.

This visit links directly to our Science learning this term, as we have been exploring different animals as part of our *Animal Safari* unit. During the session, the children will have the opportunity to observe the animals up close and, if they feel comfortable, to handle some of them under careful supervision.

Please be assured that all animals will be handled safely and respectfully, and the session will be managed by the visiting expert alongside school staff.

If you have any questions or concerns, please don't hesitate to get in touch.

Kind regards,

Natasha Blackmore
Kingfishers Teacher
